PROFESSIONAL SUMMARY

Microsoft Certified Full-Stack • Google AI Certified

Results-driven **.NET Full-Stack Developer** holding the **Microsoft Full-Stack Developer Professional Certificate** and **Google AI Professional Certificate**, alongside a 3.40/4.00 CGPA in Software Engineering. Proven track record of architecting and deploying production-ready multi-tenant SaaS platforms and enterprise operations systems using **C#, .NET 1 0, ASP.NET Core, Blazor Interactive Server, Entity Framework Core, and SQL Server**. Adept at Role-Based Access Control (RBAC), RESTful API design, relational schema optimization, and integrating Python/ML workflows into modern web applications, backed by **1 20+ solved LeetCode DSA problems**.

CORE TECHNICAL COMPETENCIES

Backend & .NET Stack	C#, .NET 1 0, ASP.NET Core, RESTful Web APIs, Entity Framework Core (EF Core), LINQ, ASP.NET Core Identity, Multi-Tenant Architecture, Role-Based Access Control (RBAC)
Frontend & Web UI	Blazor Interactive Server, MudBlazor, Razor Components, JavaScript, HTML5, CSS3, Bootstrap, Responsive Dashboard Design, State Management
Databases & DevOps	Microsoft SQL Server, SQLite, Relational Schema Design, EF Core Migrations, Query Optimization, Git, GitHub, CI/CD Fundamentals, Linux/Bash, Postman, MonsterASP.NET
AI / ML & Foundations	Python, Flask, Scikit-learn, Pandas, NumPy, Predictive Modeling, AI Application Integration, Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), Agile

FEATURED FULL-STACK & AI PROJECTS

HEXSHIELD — **Multi-Tenant Learning Management System (LMS)** Live Deployment • GitHub Repository

Tech Stack: *C#, ASP. NET Core, Blazor, Entity Framework Core, SQL Server, ASP. NET Core Identity, REST APIs*

- Architected a scalable **multi-tenant LMS** enabling isolated organizational workspaces, tenant-scoped data partitioning, and centralized administration within a unified .NET deployment.
- Engineered granular **Role-Based Access Control (RBAC)** and authentication workflows using ASP.NET Core Identity to secure tenant boundaries across administrators, instructors, and learners.
- Designed relational database schemas and EF Core migrations to manage multi-tenant course delivery, user enrollments, assessment tracking, and institutional analytics.

QUANTUM COUNT — **Enterprise Inventory, Procurement & Operations Platform** Live Deployment • GitHub Repository

Tech Stack: *C#, . NET 10, Blazor Interactive Server, ASP. NET Core, EF Core, SQL Server, Identity, REST APIs, MudBlazor*

- Built and publicly deployed an end-to-end enterprise operations platform unifying inventory control, procurement workflows, supplier management, equipment tracking, project tasking, and an integrated **AI Assistant**.
- Implemented data persistence using **Entity Framework Core and SQL Server**, handling code-first migrations, complex relational queries, and real-time MudBlazor dashboard data binding.
- Configured production authentication, authorization policies, and environment security via ASP.NET Core Identity; troubleshot and resolved live cloud hosting and API integration bottlenecks.

TASK FLOW — **Component-Driven Productivity & Workflow Dashboard** GitHub Repository

Tech Stack: *Blazor, C#, HTML5, CSS3, JavaScript, Responsive UI Architecture*

- Engineered a modular productivity web application utilizing reusable Blazor components, dynamic routing, and responsive layouts to streamline task tracking and daily workflow execution.

APPLIED AI & MACHINE LEARNING SUITE — **Predictive Analytics & Flask Web Microservices** GitHub Repository

Tech Stack: *Python, Flask, Scikit-learn, Pandas, NumPy, Feature Engineering, REST Integration*

- Developed end-to-end ML pipelines for **Credit Card Fraud Detection, Rain Prediction, and Titanic Survival**, alongside Flask web applications featuring real-time emotion detection and CRUD integration.

PROFESSIONAL CERTIFICATIONS

- **Microsoft Full-Stack Developer — Professional Certificate** (Full-Stack Integration, Blazor Frontend, .NET Backend)
- **Google AI Professional Certificate — Google** (AI Application Development & Prompt/Model Workflows)
- **IBM Applied Software Engineering Fundamentals — Specialization**

EDUCATION & HONORS

BS in Software Engineering
University of Agriculture, Faisalabad (UAF)
5th Semester • **CGPA: 3.40 / 4.00**

Intermediate (F.Sc): Punjab College Sadiqabad (928/1 200)
Matriculation: Bismillah Higher Secondary School
